

Revised History

It's Not Only The Democrats, Folks.

Lots of Republicans Want Trump Gone Too.

By Al Benson November 26, 2020

I have done articles over the years that showed how the original socialists and communists in this country, going all the way back to Lincoln, were not Democrats but were, in fact, Republicans. Read Donnie Kennedy's and my book *Lincoln's Marxists* for documentation regarding this. We have finally reached the point in this country now where *both* of the major parties are riddled with socialists. So, what else is new?

I watched a good bit of the public hearing in Pennsylvania yesterday where Rudy Giuliani and his legal team presented a bit of their evidence regarding the massive election fraud that took place in that state. The prostitute press, aka the mainstream media, has been shouting since the election that there was no evidence of election fraud against Trump. Well, yesterday Mr. Giuliani and team confronted the naysayers with some of that "non-existent" evidence. You could hear the gasps of shock as those legislators in Pennsylvania finally heard some of that evidence that we have been told did not exist.

And that's not all of it by any means. I read an article that someone sent me from <https://themarshallreport.wordpress.com> for November 24th. It featured comments by Attorney Sidney Powell. Powell stated that the "New World Order has **overthrown** the Republican Party and that the Republican Party sold its soul to the New World Order in return for large cash payments in the form of enormous bribes." Powell said "The Republican elite are not safe hiding behind their propaganda fueled media institutions, making unaccountable decisions in D.C., and silencing patriots who speak out against this insanity. When Trump begins his second term a tidal wave of punishment will be coming their way, the likes of which has never been seen before in this country." The Marshall Report continued: "In a news report by Hall Turner, his sources state that Georgia's Republican Governor Brian Kemp and the Georgia Secretary of State Brad Raffensperger both allegedly took money from Communist China, perhaps to intentionally **steal** the November 3rd election for Joe Biden." Try and check out <https://haltturnerradioshow.com>

Patrick Byrne, the former CEO of [Overstock.com](https://www.overstock.com) was recently interviewed. He had a couple of interesting comments about the Dominion voting system used across so much of the country in this recent election. Byrne said: "Dominion Systems are widely infected with a malware called Qsnatch. Qsnatch is a credential stealer. So if a volunteer in Maricopa County goes to log on, or the administrator goes to log on, his credentials are stolen..." Byrne noted that hacker journals online have estimated that around 75,000 machines across the country have been compromised, which means that all the credentials for those people who logged on have been stolen and are now available for sale on the Dark Web. Many of those credentials allegedly seem to end up in the hands of the Chinese Communist government, through one of their "hacking bases." If you think the Communist government of China is not interested in what happens with our elections, then you just haven't been paying attention too closely.

The *New American Magazine* for November 24th carried an article by Selwyn Duke in which he commented on one of Tucker Carlson's recent broadcasts. Carlson noted that "The media openly colluded with the Democratic nominees. Joe Biden and Kamala Harris refused to explain what they would do if they were elected. That's never happened before in any presidential election in American history, but the media allowed them to do it... The 2020 presidential election was not fair, and no honest person would claim that it was. The system was rigged against one candidate and in favor of another, and not in ways that were hidden from view."

And then someone sent me an interesting blurb just yesterday that said “Meet Peter Neffenger. Now he is on the Joe Biden transition team. And Neffenger is Chairman of the Board of Directors of **Smartmatic/Dominion**, a multinational company that specializes in building and running electronic voting systems that are designed from the ground up to rig, fix, and change elections. *I’m sure this is all perfectly innocent, just a big coincidence.*” Yeah right—and the moon is made out of green cheese, too!

So, between the Democratic Party, the Republican “never Trumpers” the prostitute press and the Chinese Communist Party you have one monumental effort to deny Donald Trump his legitimately won second term. And this is not accidental or coincidental, this is on purpose. Welcome to the machinations of the **deep state**.

Update—Just read an article on the *Epoch Times* website that said that Attorney Sidney Powell’s website, the one she uses to raise funds, has allegedly been taken down by Twitter. One question here—If all these big tech sites are so interested in promoting truth as they claim, then why do they feel the need to censor those that dare to disagree with them? The fact that censorship takes place is proof positive that they do not want the public at large to find out the truth and they do whatever they can to prevent that from happening.
