The Lying Ministry Of Propaganda aka “The News Media”

By Al Benson December 16, 2020

Much of the “news” media are blatant liars. But then, what else is new. The news media, so called, has been lying to us since the days of utopian socialist Horace Greeley..

I checked out what the news media had to say about the results of yesterday’s electoral college vote as I wanted to find out how the different states voted. Needless to say, the so-called news media credited Harris/Biden with all the states that still have election cases before the courts. Sorry folks, but those states cannot legitimately be credited to anyone as of yet. But to the mainstream media that makes no difference whatever. They think they should all be given to Biden—so they just credit him with having “won” them whether such is true or not. Never let the truth get in the way of how you desire to report the “news.” After all, the truth is so inconvenient to the leftist agenda let’s just pretend it isn’t there and maybe the public won’t even notice.

Case in point—the news media has declared Nevada voted for Biden. All the news outlets quoted that, but I watched the video of Nevada’s electors casting their votes for Trump. Wonder how they will handle that one down the road. I expect they will just ignore it and hope us rednecks are too stupid to notice.

I watched yet another video of Republican electors showing up in Michigan, I think it was, to cast their votes and the state police were there to deny them entry. They couldn’t get in to cast their votes. It would seem that the Democratic electors had gotten there first and so they got to do their thing. Wonder how many other places this happened that we don’t know about yet.

Folks, I submit that this is not just massive election fraud—this is revolution! The leftist revolution has now moved from the streets into the state capitols—and no one dares to call it revolution!

I don’t know what Mr. Trump plans on doing about all this, but it better be good, and it better be soon!
