## The Great Capitol “Riot” Was A Planned Farce

By Al Benson January 15, 2021

The truth usually comes out, even though it seems that it is a bit late sometimes. Now we are beginning, with bits and pieces, to find out what the “riot” at the Capitol was *really* all about. And much of it is what I originally said it was—an effort to do away with any discussion of the fraudulent nature of the November 3rd election.

The website <https://www.naturalnews.com> for January 9th noted: “The propaganda industry, also known as the media, is falling all over itself with feigned ‘shock and horror’ over the spectacle that was broadcast to the world from the Capitol on Wednesday. It was enough for nearly all of Congress to reject any further discussion about election fraud, which appears to have been the goal all along... Truth be told, the whole thing was a staged psy-op designed to further demoralize the public while creating the pearl-clutching necessary to ignore the stolen election.”

The article continued: “It was the perfect false flag attack to divert attention away from election fraud and onto Trump and his supporters, who have now been painted as ‘domestic terrorists’ and a force to be reckoned with if the United States has any chance of ‘healing.’”

Writer Michael Snyder wrote: “It is almost as if someone was extremely determined to get those Antifa activists to their location so that they could do their job... Once they got inside the Capitol, the Antifa activists could have done a much better job of disguising themselves.”

The Natural News article also observed that: “Perhaps the most obvious ‘protester’ –who is not what the media portrayed him as—is the Viking horns guy, who was seen at a BLM rally in Arizona back in June. This character was also photographed at a ‘climate activism’ event back in 2019.” If this is accurate then he can hardly be classed as a diehard Trump supporter—yet this is what the “news media” is trying to peddle to what they hope is a gullible public. You have to wonder why the media can’t seem to connect these dots. Truth is—they don’t want to because that would destroy their anti-Trump narrative and the news media is no more about real news than I am the man in the moon!

In an article on <https://trendingpolitics.com> it was noted that “In what should be front page news, federal law enforcement officials have told CNN that they believe the January 6th storming of the Capitol was planned ahead of time by bad actors *instead* of a random riot inspired by President Trump’s speech... The entire impeachment witch hunt and de-platforming of the President is based on the lie that Trump ‘incited an angry mob’. As the investigators are beginning to learn, that was not the case at all. In fact, CNN even admits that law enforcement is leaning towards the fact that everything was planned rather than just a riot that ‘spiraled out of control’.

The article contained commentary by a Carmine Sabia to the effect that “Breaking per CNN—Investigators believe riot at Capitol was planned and not inspired by Pres Donald Trump. But Democrats impeached before they had any information from investigators.” Many in Congress were looking for a reason, any reason at all would do, to impeach Trump with the idea of trying to get him out of office and never able to run for any office after this. Believe it or not, they are afraid of Trump because he is beginning to find out where the bodies are

buried and not being a part of the deep state, he might tell the American people what they need to know rather than what the deep state wants them to believe.

Another Natural News article, this one from January 15th, tells us that “Federal law enforcement officials are blowing the lid on the Capitol false flag ‘siege,’ revealing that it was planned long in advance by bad actors who *hate President Donald Trump rather than support him.*” This shouldn’t surprise us at all. The question remains—who funded these Antifa types and paid for their coming to Washington in order to make Trump look bad and to try to bury the truth about the massive election fraud? Lots of us would like to know, though I doubt we will ever find out and we better not hold our breath waiting for the “news media” to give us any meaningful information. Their job is to hide and/or twist the truth, not to reveal it.
