“China Joe’s” Amerika—The New Reconstruction

By Al Benson February 23, 2021

It almost seems that we are entering a period of 21st century “reconstruction” in some ways similar to the “reconstruction that we endured after the War for Southern Independence.

After that horrific war everything remotely “Southern” was under attack and had to be done away with so the country could be introduced to something the reconstructors called the “New South.” The New South was really no South at all. It was really a deconstruction of the old South that was then labeled “new” by its leftist promoters.

We see a parallel of that situation in our day. For today’s raving leftists Donald Trump seems to represent an embodiment of the Old South mentality that must be totally destroyed, and its memory removed—shoved down the memory hold if you will. To remove any vestige of Trump’s Old America it has to be replaced with “China Joe” Biden’s “new Amerika in which Communist China ends up controlling what goes on in this country—something many in our political establishment in both parties really have no big problem with—as long as they can continue to get a big slice of the political pie for themselves.

An article in the February 1st issue of *The New American* magazine by Alex Newman explains much of this. The article is called **Communist China Infiltrating Everything** and it is worth reading. Newman states, in part, “It has become popular for conservatives to exclaim, only half-jokingly, that ‘China owns Biden.’ Unfortunately, Biden is just the tip of the iceberg: At all levels, U.S. officials, businesses, and media outlets are being compromised. In fact, whether the mass-murdering regime in Beijing officially owns Biden or not, it ‘owns’ a growing array of assets among Western politicians, companies, technologies, media outlets, and more, a situation that threatens the survival of America as a free nation...The American media, which would normally be responsible for reporting all this, is being paid off and compromised by Beijing, too, a growing array of documents and evidence reveal...U.S. lawmakers are being targeted via bribery and blackmail to do the dictatorship’s bidding” according to U.S. Director of Intelligence John Ratcliffe.

Newman noted that Kamala Harris’ husband, Doug Emhoff works for a law firm that is getting rich working for Communist Chinese outfits posing as ‘companies.’ No surprise there. When Comrade Kamala assumes the mantle of president after China Joe is put out to pasture, she will, in effect, be Barack Obama’s third term in office. Both her and Obama have strikingly Marxist backgrounds.

But it ain’t only the Democrats, folks. The Republicans are in bed with the Chinese Reds also. Alex Newman tells us that: “Even Senate Majority Leader Mitch McConnell is indirectly tied to the CCP through his wife, Elaine Chao. Chao, a member of the globalist China boosting group known as the Council on Foreign Relations, comes from a family that made its fortune in shipping through close ties to the CCP dating back decades, multiple news reports have revealed...The threat of Chinese Communist infiltration of America and the West today is enormous and existential.” And the media is not telling you this because the Chinese have bought and paid for them. So, they will do their part to implement China Joe’s “new reconstruction.”

Remove the memory of Trump, implement the new Harris/Biden “reconstruction” for this country and then sit back and enjoy their bribe money while selling the country out to its enemies. It seems that is now the game being played. All they have to do is to keep the public here scared of the Chinese virus and hiding in fear behind

their face masks forever and they will have accomplished their goal and Amerika will soon be “reconstructed.” And your nor your children will recognize it as America anymore and that’s because it won’t be.

The new “reconstruction” deems that we will become a satellite to Red China—and our present political establishment, which has no loyalties except to the Prince of Darkness, will love to have it so. This is where we are at. Learn to resist it or get used to it.
