Get Vaccinated—Or Else!

By Al Benson July 13, 2021

Notice how some of these scientific and medical “experts” keep changing the goalposts. It’s almost like they are getting directions from someone else who is telling them what to say and when to say it.

Way back when, they informed the public that if they just got the two shots of vaccine that would take care of any problems with the Chinese Virus, and they wouldn’t have to worry anymore about it. Now they are engaged in moving the goal posts again.

An article on *Russia Today* for July 9th observed that: “US health regulators have said that a third dose of coronavirus vaccine is unnecessary ‘at this time,’ but noted that could change with new data, after Pfizer revealed plans to seek emergency authorization for a booster shot.” Seems there is now a new strain of the Chinese Virus out there and that will change everything. The article continued: “The announcement comes after Pfizer’s chief scientific officer, Mikael Dolsten said the pharma giant intends to request approval for a third vaccine dose sometime in the next month.” Anyone see a pattern here? After everyone has had a third booster shot, then how long will it be before they need a fourth booster shot, and then a fifth booster shot? And how much money will Pfizer make out of all this? You can bet they ain’t doing it for nothing/

An article of <https://www.infowars.com> for July 11th also noted that: “A Department of Homeland Security training program has provided a model for the federal government to normalize mass public quarantine measures despite the fact infections and deaths are dropping in the U.S. A website by the *Rural Domestic Preparedness Consortium* (RDPC) a training provider for the Department of Homeland Security, outlines how to begin rounding up unvaccinated American citizens for mass quarantine centers This 8-hour instructor-led course is designed to provide the knowledge necessary to begin planning for situations requiring the isolation and quarantine of a large portion of a **local, rural population.**” In other words, when push comes to shove, they are coming fr you folks in the country! You need to be aware of that. And this article continues: “This disturbing revelation comes as the Biden administration prepares to deploy door-to-door vaccine ‘strike forces’ nationwide, which, according to internal documents will entail clearing buildings and flagging unvaccinated individuals for quarantine measures.” To put it bluntly, you will end up in a FEMA camp unless you get vaccinated! So much for freedom of choice in Amerika!

I came across another article, which I cannot verify for certain on <https://americasfreedomfighter.com> and it noted: “It’s no longer a conspiracy theory. A bill in New York, SB416, will utilize FEMA camps and forced vaccines to deal with people who ‘MAY’ be contagious or a public health threat. Who gets to determine who is interred in these camps? The ruling class, of course.” There was an informative article in *The New American* magazine for July 5, 2021, by Rebecca Terrell entitled **Doctors Debunk The Medical ‘Consensus’**. It dealt with the lockdowns imposed on us during the “pandemic” and the harm they have done. In this article, one doctor, Reiner Fuellmich, noted that “This corona virus...must be renamed a ‘Corona Scandal’ and those responsible for it must be criminally prosecuted and sued for civil damages...An international network of lawyers will argue this biggest tort case ever, the corona fraud scandal which has meanwhile unfolded into probably the greatest crime against humanity ever committed.”

Another article in the same issue of *The New American* was entitled **Mask Confusion: Infringing on Individual Rights**. It dealt with the whole issue of those cloth masks everyone had to wear during the “pandemic” and whether they actually did any good or not. The article said: “A retrospective view of the past year provides answers and reveals how individual rights were trampled by masking requirements and baseless mandates emanating from manipulation, fear, confusion, and lack of information and understanding rather than from actual science.” In the same article was a picture of a mask less Anthony Fauci, the big Hillary Clinton supporter, sitting with friends. A classic do as I say, not as I do scenario. So this is where we are at right now. Big Pharma is all set to make more millions off booster shots and some states seem more than willing to “quarantine” those who dare to refuse “the jab.” So where are American’s God-given rights and freedom of choice in all this? They are willfully trampled on unless there is massive resistance to all this.

This from <https://www.lewrockwell.com> just this morning: By Becky Akers: “The Biden administration is casting conservative opponents of its Covid-19 vaccine campaign as dangerous and extreme. The White House has decided to hit back harder on misinformation and scare tactics after Republican lawmakers and conservative activists pledged to fight the administration’s stated plans to go ‘door-to-door’ to increase vaccination rates. The pushback will include directly calling out social media platforms and conservative news shows that promote such tactics. Patriots bewail this horrific, tyrannical intrusion into our communications—but the more astute realize it’s nothing new: the Deep State has been manipulating Hollywood, the press, popular music and even our correspondence for well over a century. The only difference is that now said control has come out into the open. That doesn’t make it worse, but it does make it scarier. Think of the contempt Our Rulers hold for us when they freely confess their abuse: they’re admitting it because they doubt, we’ll do anything about it.” Will we???
