Independence Day—Are We Really Free?

By Al Benson July 5, 2021

The title to this article is a rhetorical question. Anyone with a brain already knows the answer and doesn't need me to tell him. Heck, no, this country is not a free country. In fact, it has not been free since the Lincoln administration. We have had the illusion of freedom, with just enough "house privileges" from our federal master to keep us pacified while he reached for total control over our lives. With Harris/Biden in the White (Red) House he now feels that goal is within his grasp, and he is getting impatient to grasp it in his hot little socialist hand.

A conservative commentator recently said that the New World Order has successfully taken control of the federal government. When you look at what is now going on it is hard to argue too much with his assessment.

Just about every person Harris/Biden has picked for any official position is a member of the Council on Foreign Relations, which means that, in reality, the CFR is running the country, not Biden. Biden is nothing more than their vehicle through which they take total control, if he is even cognizant of what is going on. Biden was their transmission belt to power and when he has accomplished all he can to install them, they will simply disconnect him and put him out to pasture, where he should have been in the first place.

Donald Trump was a major speed bump in the New World Order's agenda to reduce the US to a banana republic. So everything Trump did had to be undone as quickly as possible. Stealing the election from him was a major first step and keeping him out of office has to be their logical next step. While Trump was not able to restore freedom to America, at least he tried. He is the only president in my lifetime that tried. But I think he underestimated the vice-grip the New World Order had on this country at least since the beginning of the 20th century.

So, what about "freedom" in America? Ask the good folks in the South how "free" they are to celebrate their history and heritage. That history and heritage, indeed their very culture, has been under constant assault for at least three decades and probably longer. Their flags and monuments have been torn down, desecrated and vandalized to the point where many of them need a county sheriff to protect them if they go to a cemetery to commemorate the grave of one of their fallen heroes. So how "free" are they? The radical socialists and communists in this country want to destroy not only their history and culture, but them as well.

And these same communists and socialists want to destroy the ranching and farming culture of the far West. After all, who needs real beef when they can be forced to buy Bill Gates' synthetic phony. It's all about cultural genocide and Authentic American cultures comprised of people who dare to think for themselves must be destroyed because they are major impediments to the agenda of the New World Order. They will not willingly be slaves to that Order, so they have to go!

You want to know who is really free in this country? How about Black Lives Matter, Antifa, and a whole host of other far left groups? They can burn, destroy, pillage and vandalize to their heart's content and the

prostitute press labels them as “peaceful protesters.” The police won’t dare to touch them and the cities they loot and burn have wicked politicians who label what they are doing as “reparations.” The far left can intimidate people with impunity and if those people dare to resist then they are arrested because as we all know, anyone resisting the far left is automatically a “domestic terrorist.”

So, in light of all this, please tell me how “free we are this Independence day!
